

FRIDAY AFTERNOON, JUNE 29

INSTRUCTIONAL COURSES

STATE OF THE ART AND NEW TRENDS IN THE MANAGEMENT OF RETINOBLASTOMA

(Coordinators: **F. Munier**, *Lausanne*, **L. Desjardins**, *Paris*)

Speakers:

Chemoreduction: how many cycles? : **Beck-Popovic**

Chemothermotherapy: **Livia Lumbroso**

Radiotherapy: from lens-to bone-sparing irradiation: **Munier**

Laser therapy complications in retinoblastoma: **Hadjistilianou**

Brachytherapy: the Iodine approach: **Christine Levy**

Neuroradiology of retinoblastoma and simulating lesions: **P. Galluzzi**

Molecular diagnosis: **Renieri, Hadjistilianou**

COMPLICATIONS AND PITFALLS OF CONSERVATIVE TREATMENT OF RETINOBLASTOMA

(Coordinator: **S. Imhof**, *Amsterdam*)

Speakers:

Brachytherapy for retinoblastoma: **N. Bornfeld**

Failure of primary conservative therapy in retinoblastoma, the role and management of vitreous relapse: **J. Hungerford**

Late effects of external beam radiotherapy: **S. Imhof**

Trilateral retinoblastoma: **T. Kivela**

Recurrences after chemothermotherapy in retinoblastoma: **L. Lumbroso**

Retinal detachment after treatment for retinoblastoma: **A. Moll**

Role of fluoresceinic angiography in the conservative management of retinoblastoma and its complications: **F. Munier**
