

SDR Biotecnologie - Seminari Novartis anno 2010

<b>Data</b>	<b>Titolo del seminario -</b>
08/01/2010	"Cross talk between dendritic cells, NK and treg during contact hypersensitivity response", Postdoctoral Fellow, Department of Pathology, Harvard Medical School
11/01/2010	Seminar with Dennis L. Kasper "Knowledge based vaccines to carbohydrates: redesigning glycoconjugates to markedly enhance immunogenicity", Harvard Medical School, Boston (host: Guido Grandi)
21/01/2010	Seminar with Gregor Gorkiewicz "Colonic microbiota alterations during diarrhea and new agents of antibiotic associated colitis", -
27/01/2010	Seminar with Michela Cesco-Gaspere "Vaccine and adoptive therapy in haematologic malignancies", Research Assistant, Immunology Dept. University College London (host: Ugo D'Oro)
29/01/2010	Seminar with Patrica Guerry "Campylobacter jejuni capsule conjugate vaccines", PhD, Head of Campylobacter Working Group Enteric Diseases Dept Naval Medical Research Center (host: Allan Saul)
01/02/2010	Seminar with Arnaud Marchant "T-Cell responses in early life: what can we learn from congenital CMV infection?", MD/PhD, Scientific director, Institute for Medical Immunology, Charleroi (host: Giuseppe Del Giudice)
04/02/2010	Seminar with Michael Assfalg "Unraveling the interaction patterns of cytosolic lipid binding proteins with physiological ligands and lipid-functionalized drugs", Assistant Professor, Dept. of Biotechnology, University of Verona (host: Domenico Maione)
15/02/2010	seminar TODAY with Tom Brewer "Overview of the enteric and diarrheal disease program of the B&M Gates foundation", Bill & Melinda Gates Foundation
11/03/2010	ROOM CHANGE - Seminar with Eric Delwart "Viral discovery using metagenomics", Associate Investigator Blood Systems Research Institute - Professor Dept. of Laboratory Medicine, University of California, San Francisco (host: Antonello Covacci)
12/03/2010	Seminar with Nigel P. Minton "Clostridium difficile: the molecular basis of virulence", Head Clostridia Research Group, University of Nottingham
19/03/2010	Seminar with Wei Xiao Wang "Recessive genetic screens in mouse ES cells to identify host factors used by pathogens", The Wellcome Trust Sanger Institute, Hinxton, Cambridge, UK
22/03/2010	Seminar with Prof. Dr. Lothar H. Wieler and Dr. Christa Ewers "E.Coli - linking phylogeny with virulence", Professors of the Institute of Microbiology and Epizootics, Freie Universität Berlin (host: Laura Serino)
29/03/2010	Seminar with Carlo Chizzolini "Th22, a novel human T helper cell subset", Md, Dept. of Immunology & Allergy, University Hospital Geneva, Associate Professor of the Geneva Medical School (host: Giuseppe Del Giudice)
30/03/2010	Seminar with Ana Sofia Maceira Antunes "Impact of Carbon Catabolite Repression (CCR) in Clostridium difficile physiopathology", PhD, Institut Pasteur, Paris (hosted by: Enzo Scarlato and ALTA - progetto EIMID IAPP)
30/03/2010	Seminar with Charalampia-Georgia A. Korea "E.coli K-12 possesses multiple cryptic but functional chaperone-usher fimbriae with distinct surface specificities", PhD, Institut Pasteur, Parigi (hosted by: Enzo Scarlato and ALTA - progetto EIMID IAPP)
26/04/2010	Seminar with Ursula Wiedermann "Development of peptide/mimotope-based vaccines against breast cancer and melanoma", MD, PhD, Center for Pathophysiology, Infectiology & Immunology Medical, University of Vienna (host: Paolo Costantino)
28/04/2010	Seminar with Timothy T. Perkins "Sequencing for assay: applications of Illumina sequencing", PhD, Research Associate, Systems Biology Group, Novartis V&D Siena (host: Antonello Covacci)
30/04/2010	Seminar with Fadi Saadé "Evaluation of novel DNA-based immunotherapeutic approaches for chronic hepatitis B therapy", PhD, Postdoctoral Fellow, Université de Limoges, France (host: Yasushi Uematsu)
07/05/2010	Seminar with Sergio Abrignani "Profiling microRNAs to understand T cell polarisation and to monitor T cell responses", MD, PhD, Chief Scientific Officer, Istituto Nazionale Genetica Molecolare (INGM), Milano (host: Rino Rappuoli)
07/05/2010	Seminar with Aimée Shen "Autoproteolytic activation of Clostridium difficile glucosylating toxins by a eukaryotic-specific small molecule", Postdoctoral Fellow, Stanford University, Stanford, CA, USA (host: Davide Serruto)
11/05/2010	Seminar with Andrew Geall "Reinventing the gene vaccine: recent advances in non-viral gene delivery of self-replicating RNA", Bparm, PhD, Formulation & Delivery, Research, Novartis V&D Cambridge, Massachusetts, US (host: Andrew Natenshon)
20/05/2010	Seminar with Xin Zhao "Molecular epidemiology of Meningococcal disease: an USA vs. China comparison", PhD, National Center for Immunization and Respiratory

SDR Biotechnologie - Seminari Novartis anno 2010

	Diseases (NCIRD), Atlanta, USA (host: Maurizio Comanducci) - NEW DATE
25/05/2010	Presentation by Dominique Razaka of EPPENDORF ITALIA entitled "Rapid Translation System: in innovative cell-free system for recombinant protein expression" (host: Francesca Sponga, TD Fermentation)
27/05/2010	Seminar with Ivano Eberini "Unusual perspectives to inflammation: biological endpoints from proteomics, drug carriers from computational biology", Università degli Studi di Milano (host: Duccio Medini) - with correct poster attached!
09/06/2010	Seminar with Eugenio Bertelli "Antigen sampling at the intestinal barrier: who carries on the job and how to boost it", PhD, MD, Associate Professor in Anatomy, University of Siena (host: Giuseppe Del Giudice)
17/06/2010	Seminar with Vincent A. Fischetti "Using what phages have learned to control gram-positive bacteria", PhD, Laboratory of Bacterial Pathogenesis, Rockefeller University, New York (host: Guido Grandi)
28/06/2010	Seminar with Vincenzo Cerundolo "The role of invariant NKT cells at the interphase between innate and adaptive immune responses", Head of Immunology, Weatherall Institute of Molecular Medicine, Oxford, UK (host: Rino Rappuoli)
29/06/2010	Seminar with David M. Markovitz "The secret life of a human endogenous virus" (host Steven Black) - UPDATED STARTING TIME 12:30 !!!!!
05/07/2010	Seminar with Corrado Spadafora "Role of endogenous reverse transcriptase in fundamental biological processes", Research Director, ISS (Istituto Superiore di Sanità), Roma (host: Steve Black)
07/07/2010	Seminar with Ron Wevers "Metabolomics in clinical medicine" and Frans G.M. Russel "The ABCs of drug transport and toxicity", Radboud University Nijmegen, NL (host: Annalisa Santucci, Università di Siena, co-hosts Mario Contorni TD, Rino Rappuoli)
08/07/2010	Seminar with Jean-Claude Weill "Multiple layers of B cell memory with different effector functions", PhD, Professor of Immunology, Faculté de Médecine Necker, Paris (host: Grazia Galli)
09/07/2010	Seminar with Maja Rupnik "Characteristics of variant C. difficile strains", Professor and Head of Research Department, Centre for Microbiology, Institute of Public Health, Maribor, Slovenia (host: Cesira Galeotti)
14/07/2010	Seminar with Scott Beatson "Genomic approaches for investigating the evolution of pathogenesis in Escherichia coli", Australian Research Council Fellow, Centre for Infectious Disease Research, University of Queensland, Brisbane (host: Kate Seib)
17/09/2010	Seminar with David Rasko "Genomic and transcriptomic characterization of enterotoxigenic E.coli: insights into an established pathogen", PhD, Assistant Professor Univ. of Maryland, School of Medicine, Institute of Genomic Sciences (host: Laura Serino)
22/09/2010	Seminar with Lars Björck "Streptococcus pyogenes, proteolysis, immunity and virulence", PhD, Professor of Infection Medicine, Lund University Sweden (host: Robert Janulczyk)
05/10/2010	Seminar with Gad Frankel "Infection with enteropathogenic E.coli is a matter of life or death for cells", PhD, Professor of Molecular Pathogenesis, Imperial College, London, UK (host: Laura Serino)
07/10/2010	Seminar with Robert Kingsley "Salmonella Typhimurium pathovariants: genomic insights into the emergence of pathogens", PhD, Senior Scientist of Research Group Dr Gordon Dougan, Wellcome Trust Sanger Institute, Cambridge, UK (host: Laura B. Martin -NVGH)
08/10/2010	Seminar with Benjamin Davis "Sugars and Proteins", Professor of Chemistry, Fellow and Tutor in Organic Chemistry, Pembroke College, Oxford, UK (host: Francesco Berti)
18/10/2010	Seminar with Edmund Loh "RNA-mediated virulence gene regulation in the human pathogen Listeria monocytogenes", Department of Molecular Biology, Umeå University, Sweden (host: Isabel Delany)
27/10/2010	Seminar with Calman MacLennan "Antibody-mediated immunity to nontyphoidal Salmonella in Africa and what goes wrong in HIV infection", Head of Exploratory Programme, NVGH, Siena (host: NVGH)
02/11/2010	Seminar with Fidel Zavala "Immunology of malaria pre-erythrocytic stages: Implications for vaccine development", MD, Professor of Microbiology and Immunology, John Hopkins Malaria Research Institute, Baltimore, USA (host: Giuseppe Del Giudice)
04/11/2010	<b>Fabio Rigat</b> Assistant Professor, Department of Statistics and Centre for Analytical Science, University of Warwick, UK <i>Adventures in Biostatistics: From Dry Theory to Wet Applications</i>

SDR Biotecnologie - Seminari Novartis anno 2010

17/11/2010	<p><b>Ingileif Jónsdóttir</b>          Professor of Immunology at the Faculty of Medicine, University of Iceland and Department of Immunology,          Landspítali University Hospital Reykjavik Iceland  <b><i>Polysaccharide induced Hyporesponsiveness</i></b></p>
19/11/2010	<p>Giovanni Melillo          Head, Tumor Hypoxia Laboratory - Developmental Therapeutics Program          Adjunct Investigator, Medical Oncology Branch, Center for Cancer Research          SAIC Frederick, Inc.          National Cancer Institute at Frederick, MD  <i>Targeting the hypoxic tumor microenvironment for cancer therapy</i></p>
24/11/2010	<p><b>Anne Karin Brigtsen</b>          Women and Children's Division  <b><i>Group B Streptococcal Disease in Norway. Epidemiology and Preventive Strategies</i></b></p>
24/11/2010	<p><b>John Oxford</b>          Scientific Director of Retroscreen Virology Ltd., and Professor of Virology at St Bartholomew's and the Royal London Hospital, Queen Mary's School of Medicine          and Dentistry  <b><i>The infamous and unpredictable H1N1 family from 1918 to 2010 and beyond</i></b></p>
13/12/2010	<p>Carl Figdor: "Role of c-type lectins and their potential use of targeting dendritic cells in vivo in cancer immunotherapy"</p>
21/12/2010	<p><b>Cesare Montecucco</b>          Professor of General Pathology Department of Biomedical Sciences University of Padova  <b><i>Segnali di pericolo indotti dalle miotossine di serpenti</i></b></p>
