

*Framework Programme e  
Work Programme: processo  
decisionale e protagonisti*

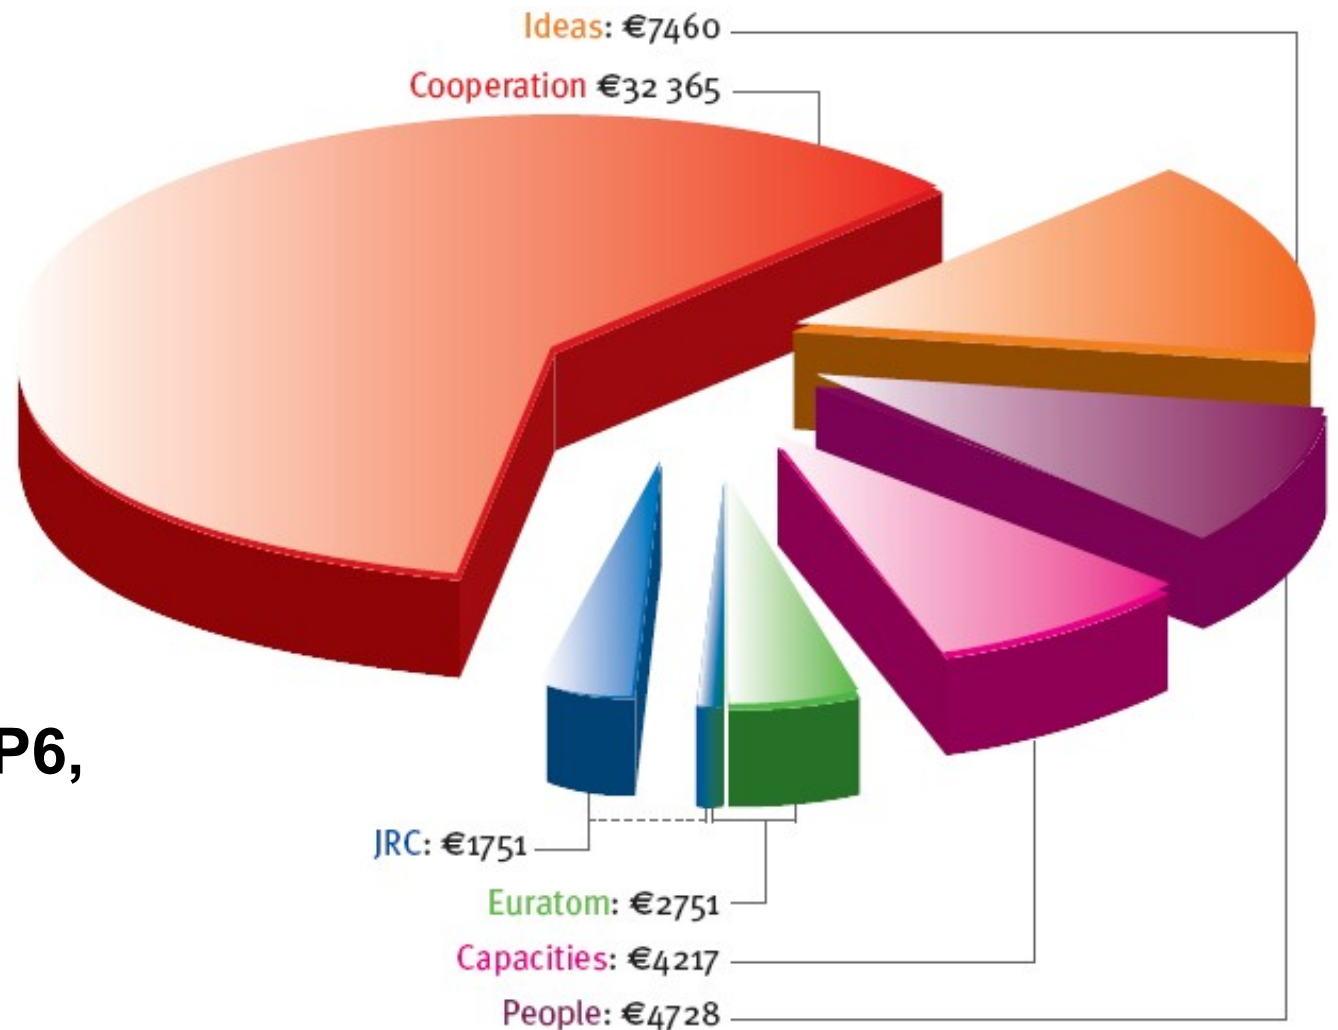

Gianni Pozzi  
Università di Siena

- **FRAMEWORK PROGRAMME (FP7).**
  - E' il principale strumento attraverso il quale la UE sostiene **Ricerca e Sviluppo Tecnologico**
  - Vi si definiscono gli argomenti oggetto dei bandi di finanziamento
  - E' implementato attraverso *Specific Programmes* cui si danno spesso nomi di fantasia
- **WORK PROGRAMME** è il contenuto dei bandi degli *Specific Programmes*

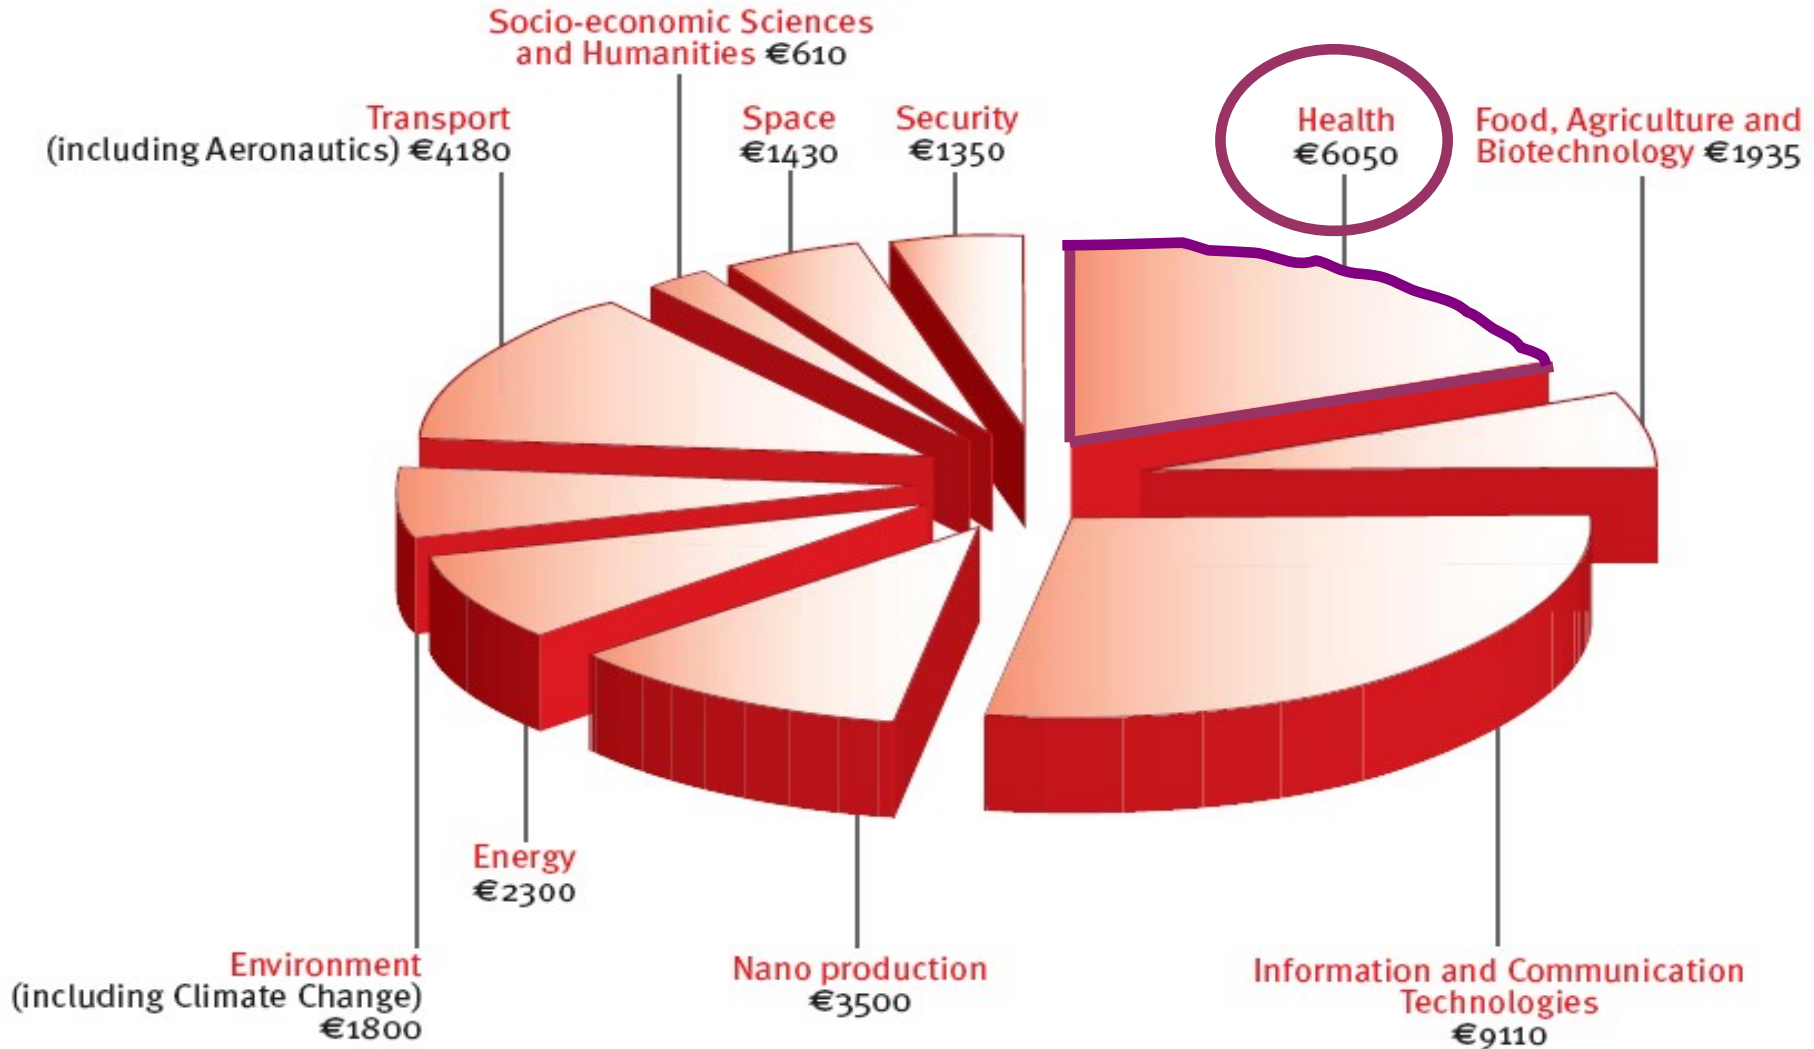

## Indicative breakdown (million €)

**Total budget:  
50.4 billion €  
over 7 years**

**= average 40%  
increase of  
yearly budget  
compared to FP6,  
but heavily  
„tail-loaded“**

# The Cooperation Programme breakdown (€ million)

The key objective of EU Research research policy (Art.163 of the EC Treaty): *“the strengthening of the scientific and technological bases of Community industry”*.

The core objectives for Health research in FP7 are *“improving the health of the European citizens and increasing the competitiveness of the European health related industries and businesses...”* with emphasis on *“translational research”*<sup>1</sup>.

**Reminder:**

The European Commission currently manages about 5-7% of total public spending in R&D in the European Union.

The EU-27 currently invests about 1.84% of GDP in research
