Information regarding student and staff mobility:

It is possible to cancel, suspend or postpone activities by applying the *force majeure* clause.

**Mobility activities for students and staff selected in Call 2019 that have been cancelled may be postponed until September 2021.**

Mobility of recent graduates for traineeship purposes: students whose graduation sessions have been postponed, but cannot postpone mobility, shall be able to undertake, when circumstances allow, the mobility for traineeship purposes for which they have been selected **once they graduate**.

Current outbound student mobility: Italian students who are currently on Erasmus mobility can continue their mobility in the host country. Any interruption of teaching activities at the host institutions due to the Covid-19 emergency will not be considered as periods of interruption of mobility and the grant will be maintained.

Cancelled student and staff mobility periods: students and staff whose mobility period has been cancelled due to force majeure, any costs of which have been recognized in accordance with this Note, may be postponed by assigning the same contribution to the participant for the new mobility period (without prejudice to the maximum period of 12 months of study abroad).

For staff mobility: in the event of interruption and suspension of activity, you are advised to keep (as already specified in the Selection Notices) all receipts and payment slips for any expenses for which you wish to request reimbursement.
