Brief introduction to Wenzhou University

Wenzhou University (WZU) is a comprehensive and regional institution of higher learning, which can be traced back to Wenzhou Normal College founded in 1933. WZU is in the beautiful and prosperous city of Wenzhou in the south of Zhejiang Province. The Chashan Campus and Xue Yuanlu Campus altogether cover an area of 157 hectares. Its main campus (Chashan Campus) is in Wenzhou Higher Education Park with Luoshan Mountains to its south and Sanyang wetlands to its north, the picturesque location provides an ideal place for both personal enrichment and academic learning.

It carries forward its long-standing tradition of “Nurturing Virtues and Exploring Truth” and forges ahead with its motto of “Keep learning and seeking truth with robust pioneering spirits”. The principle of “serving local society by placing people first” gives priority to

quality in the development of competitive advantage, based on distinctive features and the pursuit of excellence.

Brief Introduction to Wenzhou

Wenzhou is a prefecture-level city in southeastern Zhejiang province in the People's Republic of China. Wenzhou is located at the extreme south east of Zhejiang Province with its borders connecting to Lishui on the west, Taizhou on the north, and Fujian to the south. It is surrounded by mountains, the East China Sea, and 436 islands, while its lowlands are almost entirely along its East China Sea coast, which is nearly 355 kilometers (221 miles) long. Most of Wenzhou's area is mountainous as almost 76 percent of its 11,784-square-kilometre (4,550 s.q. meter) surface area is classified as mountains and hills. It is said that Wenzhou has 7/10 mountains, 1/10 water, and 2/10 farmland.

At the time of the 2010 Chinese census, 3,039,500 people lived in Wenzhou's urban area; the area under its jurisdiction (which includes two satellite cities and six counties) held a population of 9,122,100, of which 31.16% are non-local residents from regions outside Wenzhou.

Wenzhou, which translates to "a mild and pleasant land", derives its name from its climate, as it is neither extremely hot in summer nor extremely cold in the winter.

Number of Exchange Students

The number is determined by bilateral agreement. More exchange students can be accepted with notice in advance.

Areas of study open for exchange students

Exchange students can study Chinese language in the College of International Education and select other courses (taught in English or Chinese) based on their academic background at home university. For general courses, please fill in the Nomination Sheet. The English-taught course list can be available at the end of each semester.

Academic Calendar

September 1st, 2023 to January 10th, 2024 (estimated and may be adjusted a bit)
