COURSE AND GRADUATION EXAMS (WINTER SESSION)

Update 01/19 2022

Dear all,
concerning the organization of exams of the currently-underway winter session, the Academic Senate confirms that it is guaranteed the possibility of taking the exams in presence, except in special cases authorized by the directors of the departments or for any impediment of the professors due to health reasons.
Students have also guaranteed the possibility of asking to take the exam in the remote mode. Taking into account the particular complexity of the emergency, professors and teaching offices are recommended to promptly communicate the dates and methods of carrying out the exam sessions so as to allow students to plan their participation.
The above applies to both course and graduation exams, and remains in force for the entire duration of the winter session.

Best regards.

The Rector
Prof. Francesco Frati
