

Blended Intensive Programme (BIP) Informal adult teaching and learning in a prison setting

Erasmus+ mobility programme (2021–2027) offers a new, more flexible student and staff mobility. Blended Intensive Programme (BIP) combines physical mobility with a virtual part which aims to achieve a transnational and collaborative online learning exchange and teamwork. BIP courses have an added value compared to existing programmes or courses. They are short-term study modules (6 ECTS per BIP course) that offer the opportunity to participate also to those students who cannot complete a long-term mobility.
