Toscana Cereali

**Chemistry for Life & Environment
Education, Collaboration, Innovation**

X Edition, 27 May - 03 July 2013

**OPENING
29 May 2013**

Polo di San Miniato, Classroom #25

9:00 Arrival at San Miniato. Hang posters

9:30 **Introduction and greetings**

Daniela Valensin - President of Organizing Committee and Unisi Coordinator of General Cooperation Agreement Emory/Unisi

Angelo Riccaboni - Rector Unisi

Maurizio Taddei - Director of Department of Biotechnology Chemistry & Farmacy

Renzo Cini - Former Unisi Coordinator of General Cooperation Agreement Emory/Unisi

Riccardo Basosi - Director of Doctorate School & Rector's delegate for Energy and Environment

José Soria - Emory Representative

Vincent Conticello - Emory Representative

11.00 **Coffee break** and first poster session

11.20 Gabriella Tamasi - Executive Coordinator of Summer School

Introduction of summer program and its educational purposes

Presentations by Unisi research groups

Gianni Valensin - *CREA Research Center*

Elena Petricci - *Microwave-assisted reaction with gas reagents. A green approach to decorated molecules*

Claudia Perini - *A new window for natural reserves: the mycological view*

Cecilia Pozzi - *High resolution iron derivative of bullfrog M ferritin: structural insight into the ferroxidase process*

Riccardo De Ricco - *α - and β -Synuclein, an insight on N-termini Cu(I)-binding*

12.30 **Buffet**

14.00 Posters section & Conclusions
