

Nature Nanotechnology nano and the environment

Fabio Pulizzi

Chief Editor Nature Nanotechnology, Springer Nature

nature nanotechnology

Thu, Mar 4, 2021 9:00 AM - 10:00 AM (GMT)

Please join my meeting from your computer, tablet or smartphone

<https://global.gotomeeting.com/join/227217261>

In my talk I shall present an overview of the journal, discussing what we look in a manuscript, with particular emphasis on the coverage of the applications and implication of nanotechnology for the environment. I will then discuss in detail the editorial process from submission to final decision

■ Nature Nanotechnology was launched in 2006 with the goal of publishing the most significant research in nanoscience and nanotechnology.

Fabio joined Nature Nanotechnology in July 2012 after working for six years at Nature Materials first as an Associate Editor and then Senior Editor.

He has a first degree in physics from the University of Rome La Sapienza, Italy, and a PhD from the University of Nijmegen, the Netherlands.

He also worked as a postdoc at the Universities of Nottingham and Sheffield.

His research focused on the properties of semiconductor nanostructures.

He is based in London.
