The "Documents for evaluation" specified in the table (see art. 1 of the Doctoral programme competition announcement) must be sent with the online application form in electronic format. As confirmation that your application has been registered, an automatic "Application memo" will be issued.

The application form is automatically sent to the University when the procedure at <https://segreteriaonline.unisi.it> has been completed. No printed materials need to be sent or delivered to the University offices.

Admission and enrolment

There will be a single final ranking list, published on the following page: www.unisi.it/ricerca/dottorati-di-ricerca selecting the Doctoral Programme of interest. Successful candidates will not be notified in person.

Places may be reserved for graduates of foreign universities, foreign grant recipients, those participating in specific international mobility programmes, or recipients of research grants in the same scientific-disciplinary area as the research programme, depending on their place in the ranking list, and as long as the study or research grant has the same duration as the Doctoral Research programme (at least 3 years).

The simultaneous enrolment on a first or second cycle degree, postgraduate specialization course or another Doctoral Programme is not permitted.

Doctoral students may attend medical specialization courses at the same time as the Doctoral Programme. In this case, the duration of the Doctoral Programme is reduced to a minimum of two years (art. 19, Law 240/2010), as long

as the following criteria are respected:

- a) the specialization student must have won a competition for admission to the doctoral programme at the same University in which he/she wishes to attend the specialization school.
- b) joint attendance can take place during the last year of the specialization school but must be compatible with the activities and commitments provided for by the school itself, following permission from the board of the relevant school.
- c) The academic board of the doctoral programme decides whether to accept requests for reductions in the programme length following an evaluation of the research activities already conducted during the medical specialization school, as certified by the board of the specialization school.
- d) During the year of joint attendance the specialization student cannot receive the doctoral research grant.

- **Declaration of Value "in loco"**, clearly stating that the academic qualification possessed gives access to Doctoral Research Programmes in the country in which it was awarded.

Candidates with foreign academic qualifications who cannot deliver the documents required at the time of enrolment will be enrolled conditionally and will be excluded from the Doctoral Programme if they fail to present said documents by the deadline set by the Administration. They will also be excluded if their qualifications are found not to comply with the requirements specified in the call.

Non-EU candidates who have passed the admission exam will be admitted to the courses as long as they have a permit to enter and reside in Italy and are legally residing in Italy (art. 39, par. 5, Legislative Decree. 25.07.1998 no. 286 as modified by art. 26 Law 30.07.2002 no. 189); they must present a copy of their passport and a valid residence permit issued by the competent authorities along with the enrolment form.
