

1ST EUROPEAN CONGRESS ON ENDOMETRIOSIS

NOVEMBER 29 - DECEMBER 1, 2012
SIENA, ITALY - GARDEN HOTEL

ADVANCED SCIENTIFIC PROGRAM

ENDOMETRIOMA: FROM PATHOGENESIS TO CLINICAL MANAGEMENT

Dear Colleagues

Welcome at the 1st European Congress on Endometriosis in Siena, Italy. Organized by the European Endometriosis League (EEL), it will be first the occasion to get together the European experts in the field of endometriosis. Endometriosis is a benign gynecological disease with a severe impact on women's health and epidemiology, pathogenesis and clinical management are still critical points. This congress will be a great opportunity to present and discuss the latest developments related to endometriosis.

The theme of the Congress is "Endometrioma: from pathogenesis to clinical management". The program includes 21 lectures and a series of 3 debates are scheduled; moreover, in the congress program 32 selected oral communications and 85 posters are also included.

The Congress will be preceded by two practical pre-congress courses on Live surgery and Ultrasound and by three special symposia and expert meeting on the newest medical treatments for endometriosis and uterine fibroids.

EEL is pleased to announce that the 2nd European Congress on Endometriosis is scheduled to be held in Berlin, Germany, on 29-30th November 2013.

Endometriosis will benefit from this meeting and we are confident that this will be a productive meeting and an enjoyable stay in Siena, one of the most cultural city in Europe.

Yours sincerely,

Felice Petraglia, Charles Chapron Hans-R. Tinneberg

PRESIDENTS

Felice Petraglia (Siena, Italy)

Charles Chapron (Paris, France)

Hans Rudolf Tinneberg (Giessen, Germany)

SCIENTIFIC COMMITTEE

Vincent Anaf (Brussels, Belgium)

Stefano Angioni (Cagliari, Italy)

Eniko Berkes (Giessen, Germany)

Josef Bodis (Pecs, Hungary)

Bruno Borghese (Paris, France)

Olaf Buchweitz (Hamburg, Germany)

Francisco Carmona (Barcelona, Spain)

Vincenzo De Leo (Siena, Italy)

Dominique De Ziegler (Paris, France)

Andreas D. Ebert (Berlin, Germany)

Simone Ferrero (Genoa, Italy)

Andrew Horne (Edinburgh, UK)

Daniela Hornung (Lubeck, Germany)

Joerg Keckstein (Villach, Austria)

Ludwig Kiesel (Munster, Germany)

Jan Kotarski (Lublin, Poland)

Stefano Luisi (Siena, Italy)

Antonio Maiorana (Palermo, Italy)

Antonios Makrigiannakis (Heraklion, Greece)

Ioannis Matalliotakis (Heraklion, Greece)

Blazej Meczekalski (Poznan, Poland)

Michael Mueller (Berne, Switzerland)

Annemiek W. Nap (Arnhem, The Netherlands)

Alexander Popov (Moscow, Russia)

Stefan Renner (Erlangen, Germany)

Pietro Santulli (Paris, France)

Adolf Schindler (Essen, Germany)

Edgardo Somigliana (Milan, Italy)

Paola Viganò (Milan, Italy)

Arnaud Wattiez (Strasbourg, France)

Errico Zupi (Siena, Italy)

LOCAL COMMITTEE

Stefano Luisi

Lucia Lazzeri

Serena Pinzauti

Claudia Tosti

Department of Pediatrics,
Obstetrics and Reproductive Medicine

University of Siena,

Viale Bracci – 53100 – Siena, Italy

tel: +39 0577 586641

fax: + 39 0577 233454

NOVEMBER, 29th

CONGRESS AT A GLANCE

PRE CONGRESS COURSES (1-2) VENUE: UNIVERSITY HOSPITAL, LE SCOTTE, SIENA

Course 1 **Aula 6 Centro Didattico**

08.30-13.00 Live Surgery

Course 2 **Aula A Centro Direzionale**

08.30-12.45 Role of imaging in the workup of endometriosis:
FAQs to enhance the management

PRE CONGRESS COURSES (3-4-5-6) VENUE: GARDEN HOTEL, SIENA

Course 3 **Russian Course Hall A**

08.00-09.30 Russian -speakers Symposium "Endometriosis in XXI century" (In Russian)

Course 4 **Hall A**

09.30-13.25 European Expert Meeting: applying a new evidence based -
treatment approach to clinical practice (with Russian simultaneous translation)

Course 5 **Hall B**

09.30-13.30 Ulipristal Acetate for the treatment of fibroids

Course 6 **Hall C**

12.30-13.50 Dienogest: a new progestin for endometriosis (in Italian)

CONGRESS VENUE: GARDEN HOTEL, SIENA

Hall A+B+C

15.15 Opening and welcome

Session 1

15.30-16.30 Pathogenesis of endometrioma

Session 2

17.00-18.00 Management of endometrioma

Plenary lecture

18.30 Endometriosis and deep dyspareunia: a perspective

21:30 After Dinner Drink at "Contrada dell'Oca" Santa Caterina Street, 52

Hall A+B+C

Session 3

08.30-10.00 Endometrioma and infertility

Session 4

10.30-11.30 Surgical management for endometrioma

Plenary lecture

12.00 Is endometrioma a single disease or a syndrome?

12.30-14.00 **Posters and Lunch**

SELECTED PAPERS 14.00-16.00

Hall A

Genes, pathogenesis and new diagnostic perspectives

Hall B

Surgical and medical management

Hall C

Chronic pelvic pain: a gynecological team approach

16:00-16:30 **Tea break**

DEBATES 16.30-17.45

Hall A

Is the recurrence of DIE related to the validity of surgery?

Hall B

Does endometrioma may be considered a pre- neoplastic lesions?

Hall C

Heavy menstrual bleeding: medical or surgical management?

Hall A

18.00 EEL General Assembly

20.00 **Gala Dinner**

Hall A+B+C

Plenary Lecture

08.30 The long and winding road...the last 25 years of endometriosis research

Session 5

09.00-10.30 Medical treatment for endometrioma

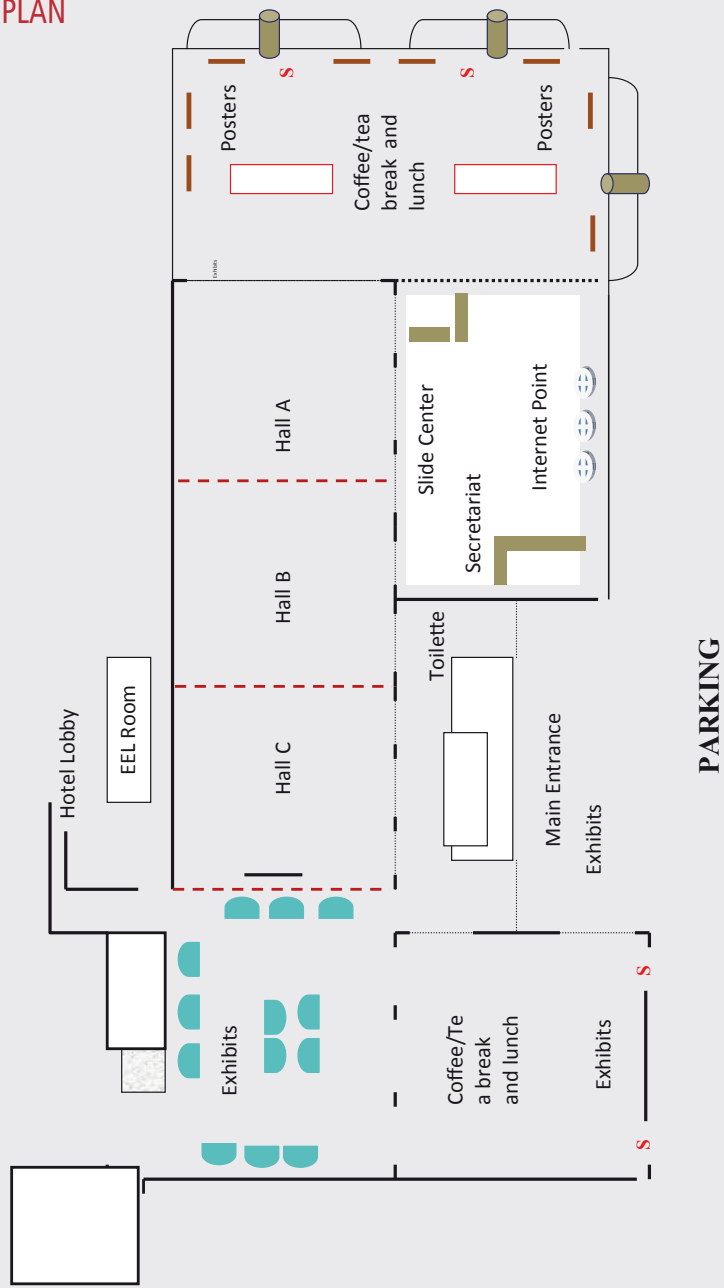

Session 6

10.45-11.45 Endometriosis: the new frontiers

12:15 Take home messages

CONGRESS VENUE PLAN

PRE-CONGRESS COURSES

THURSDAY 29 NOVEMBER

VENUE: UNIVERSITY HOSPITAL, LE SCOTTE, SIENA

Course 1 Aula 6 Centro didattico 08.30-13.00

Live Surgery

Chairs: Errico Zupi (Siena, Italy), Alberto Mattei (Florence, Italy)

Surgeons: Stefano Luisi (Siena, Italy), Anastasia Ussia (Rome, Italy),
Vito Cela (Pisa, Italy), Mario Malzoni (Avellino, Italy)

Course 2 Aula A Centro direzionale 08.30-12.45

Role of imaging in the workup of endometriosis: FAQs to enhance the management

08.30-09.45 Endometrioma

Chairs: Vincenzo De Leo (Siena, Italy), Andreas D. Ebert (Berlin, Germany)
vs Filiberto Maria Severi (Siena, Italy)

10.00-11.15 Adenomyosis

Chair: M. Elisabetta Coccia (Florence, Italy)
Philippe Koninckx (Leuven, Belgium) vs Gernot Hudelist (Vienna, Austria)

11.30-12.45 Deep infiltrating endometriosis

Chair: Filiberto Maria Severi (Siena, Italy)
Joerg Keckstein (Villach, Austria) vs Caterina Exacoustos (Rome, Italy)

VENUE: GARDEN HOTEL

Course 3 Hall A • Russian Course 08.00-09.30

Russian-speakers Symposium "Endometriosis in XXI century" (in Russian)

Chairs: Gennady T. Sukhikh (Moscow, Russia),
Vladislav I. Krasnopolsky (Moscow, Russia)

Surgeons: Stefano Luisi (Siena, Italy), Anastasia Ussia (Rome, Italy),
Vito Cela (Pisa, Italy), Mario Malzoni (Avellino, Italy)

08.00-09.30 Medical treatment of endometriosis • Galina Chernuha*
How to treat endometriosis-associated infertility • Ksenia Krasnopolskaya*
Strategy in diagnosis and treatment of extensive endometriosis • Vitaly Bezhenar*
Surgical treatment of deep endometriosis • Alexander Popov*
Atypical forms of endometriosis • Konstantin Puchkov*
Endometriosis and breast pathology • Sergey Levakov*
*Moscow, Russia

Course 4 Hall A • European Expert Meeting 09.30-13.25
Applying a new evidence-based treatment approach to clinical practice
(With Russian and Italian simultaneous translation)

09.30 Introduction & Welcome
Hans Rudolf Tinneberg (Giessen, Germany)

Module 1: Considerations in the non-surgical management of endometriosis

Chairs: **Mauricio Abrao** (San Paulo, Brazil)

09.45 Considerations in managing endometriosis
Sony Singh (Kingston, Canada)

10.15 The burden of endometriosis on women and society
Krina Zondervan (Oxford, UK)

10.25 Q & A
Mauricio Abrao (San Paulo, Brazil)

Module 2: New treatment, new thinking: Evidence-based treatment with Visanne®

Chair: **Ludwig Kiesel** (Munster, Germany)

10.30 Exploring the science of dienogest for endometriosis treatment
Daniela Hornung (Lubeck, Germany)

10.45 Visanne® - Innovation in the medical management of endometriosis
Christian Seitz (Berlin, Germany)

Chair: **Leila Adamyan** (Moscow, Russia)

11.05 Visanne® in clinical practice
Thomas Romer (Cologne, Germany), **Carlos Petta** (Campinas, Brazil)

11.25 Fertility aspects with Visanne®
Gulden Halis (Berlin, Germany)

11.35 Q & A
Ludwig Kiesel (Munster, Germany), **Leila Adamyan** (Moscow, Russia),

12.00 Break

Module 3: Debating today's controversies in the medical management of endometriosis

- 12.15 **Debate:** The role of COCs in endometriosis therapy
Chair: **Mauricio Abrao** (San Paulo, Brazil),
Carlos Petta (Campinas, Brazil), **Robert Casper** (Toronto, Canada)
- 12.55 **Debate:** The role of adjuvant therapy in endometriosis
Chair: **Kutay Biberoglu** (Ankara, Turkey)
Micheal Mueller (Berne, Switzerland), **Andreas D.Ebert** (Berlin, Germany)
- Wrap up & Closing**
13.25 **Hans Rudolf Tinneberg** (Giessen, Germany)

Course 5 Hall B 09.30-13.30**Ulipristal Acetate for the treatment of fibroids**

- Chairs:** **Hilary Critchley** (Edinburgh, UK), **Jacques Donnez** (Leuven, Belgium)
- 09.30-13.30 Uterine fibroids and SPRM
Felice Petraglia (Siena, Italy)
Uterine fibroids and SPRM
Felice Petraglia (Siena, Italy)
How is Ulipristal Acetate different?
Ernest Loumaye (Geneva, Switzerland)
Esmya Phase III data: PEARL I & PEARL II Clinical Studies
Jacques Donnez (Leuven, Belgium)
Safety of Ulipristal Acetate & PRM-Associated Endometrial Changes (PAECs)
Silvestro Carinelli (Milano, Italy)

Course 6 Hall C 12.30-14.30**Dienogest: a new progestin for endometriosis (in Italian)**

- Chairs:** **Carmine Nappi** (Naples, Italy), **Luigi Fedele** (Milan, Italy)
- 12.30 Surgical management of endometriosis
Fulvio Zullo (Catanzaro, Italy)
- 12.50 Medical management of endometriosis
Ludovico Muzii (Rome, Italy)
- 13.10 Dienogest: a multifunction progestin
Antonio Maiorana (Palermo, Italy)
- 13.30 Clinical study on dienogest
Stefano Angioni (Cagliari, Italy)
- 13.50 Case Report Round Table
Felice Petraglia (Siena, Italy)

CONGRESS

THURSDAY 29th NOVEMBER

CONGRESS VENUE: GARDEN HOTEL, SIENA • **HALL A+B+C** (Plenary)

Hall A

15.15 Opening and Welcome

Session 1 Pathogenesis of endometrioma

Chairs: Ioannis Matalliotakis (Heraklion, Greece),
Karl Werner Schweppe (Westerstede, Germany)

15.30 Pathogenesis of endometrioma
Paola Viganò (Milan, Italy)

16.00 Environmental influences on the development of endometrioma
Francisco Carmona (Barcelona, Spain)

16.30 From endometrioma to endometriosis-associated ovarian cancer: how does it happen?
Bruno Borghese (Paris, France)

Session 2 Management of endometrioma

Chairs: Jan Kotarski (Lublin, Poland),
Olaf Buchweitz (Hamburg, Germany)

17.00 Management of endometrioma: the timing
Renato Seracchioli (Bologna, Italy)

17.30 Surgery for endometrioma and ovarian reserve: is it a real damage?
Ludovico Muzii (Rome, Italy)

18.00 Endometrioma and adhesions: how to avoid the latter
Michael Mueller (Berne, Switzerland)

Plenary lecture

18.30 **Chair:** Mauricio Abrao (San Paulo, Brazil)
Endometriosis and deep dyspareunia: a perspective
Paolo Vercellini (Milan, Italy)

21.30 **Wine and cheese plus Vin Santo and Cantuccini at "Contrada dell'Oca"**
Santa Caterina Street, 52, Siena and **Museum visit** (All participants invited)

HALL A+B+C (Plenary)

Hall A

Session 3

Endometrioma and infertility

Chairs: **Pierluigi Venturini** (Genoa, Italy),
Krzysztof Szyllo (Lodz, Poland)

- | | |
|-------|--|
| 08.30 | Does endometrioma cause infertility?
Aydin Arici (Istanbul, Turkey) |
| 09.00 | Endometrial changes in endometriosis
Antonios Makrigiannakis (Heraklion, Greece) |
| 09.30 | Medical treatments in women with endometriosis before IVF
Dominique De Ziegler (Paris, France) |
| 10.00 | Coffee break |

Session 4

Surgical management for endometrioma

Chairs: **Alexander Popov** (Moscow, Russia),
Josef Bodis (Pecs, Hungary)

- | | |
|-------|--|
| 10.30 | Laparoscopic treatment of endometrioma: a complex surgery
Mauro Busacca (Milan, Italy) |
| 11.00 | Bowel endometriosis
Michael Canis (Clermont-Ferrand, France) |
| 11.30 | Urinary endometriosis
Arnaud Wattiez (Strasbourg, France) |

Plenary lecture

- | | |
|-------|---|
| 12.00 | Chair: Andrea R. Genazzani (Pisa, Italy)

Is endometrioma a single disease or a syndrome?
Charles Chapron (Paris, France) |
|-------|---|

- | | |
|-------------|--------------------------|
| 12.30-14.00 | Posters and Lunch |
|-------------|--------------------------|

- P-01. Family incidence of endometriosis in first-, second-, and third-degree relatives: a case-control study**
 Staudigl C, Poschalko G, Pateisky P, Kuessel L, Jaeger-Lansky A, Nouri K, Ott J, Krupitz B, Huber JC, Kowarik E, Wenzl R. (Vienna, Austria)
- P-02. First evidence of association of the CDKN2BAS locus with endometriosis in a Caucasian population**
 Pagliardini L, Gentilini D, Viganò P, Panina-Bordignon P, Di Blasio A.M, Candiani M. (Milan, Italy)
- P-03. May endometriosis be correlated with stressful life events? The role of serotonin transporter gene promoter polymorphism**
 Megiorni F, Resta S, Fuggetta E, Ticino A, Storelli P, D'Itri F, Evangelista S, Lia C, Cavaggioni G, Pizzuti A, Porpora M.G. (Rome, Italy)
- P-04. A hunt for endometriosis specific plasma miRNAs**
 Saare M, Vaidl K, Salumets A, Peters M. (Tartu, Estonia)
- P-05. CYP2C19 gene polymorphism and the risk of endometriosis**
 Abolghasemi S, Mashayekhi F, Ghasemi S, Asadi R, Salami H, Abbaspour M, Ebrahimi A. (Tehran, Iran)
- P-06. Epigenetic modifications of the Hoxa10/HOXA10 gene in endometriosis**
 Andersson K.L, Bussani C, Amunni G, Scarselli G. (Florence, Italy)
- P-07. Positive screening tests for fibromyalgia in different types of endometriosis patients**
 Coloma J. L, Martínez-Zamora M. A, Collado A, Balasch J, Carmona F. (Barcelona, Spain)
- P-08. Antiphospholipid antibodies in endometriosis patients**
 Martínez-Zamora M.A, Coloma J. L, Tassies D, Reverter J. C, Espinosa G, Cervera R, Balasch J, Carmona F. (Barcelona, Spain)
- P-09. Activin A stimulates Interleukin 8 and Vascular Endothelial Growth Factor release from Cultured Human Endometrial Stromal Cells: possible implications for the pathogenesis of endometriosis**
 Rocha A.L.L, Carrarelli P, Novembri R, De Pascalis F, Luisi S, Reis F.M, Petraglia F. (Siena, Italy)
- P-10. The PI3K/AKT cell-signalling pathway in uterine smooth muscle cells of women with adenomyosis and controls without adenomyosis**
 Streuli I, Chouzenoux S, Santulli P, Chéreau C, Weill B, De Ziegler D, Chapron C, Batteux F. (Paris, France)
- P-11. The presence of an ovarian endometrioma affects the oxidative status of the developing follicle**
 Corti L, Sanchez A, Vanni V, De Michele F, Santambrogio P, Levi S, Viganò P, Panina P, Papaleo E, Candiani M. (Milan, Italy)

- P-12. Brain-derived neurotrophic factor in women with endometriosis**
Pluchino N, Freschi L, Giannini A, Simi G, Luisi S, Cela V. (Pisa, Italy)
- P-13. Ovarian and extensive peritoneal endometriosis with high elevation of CA-125**
Ferri Folch B, Soler Ferrero I, Padilla Iserte, P, Vila Vives J.M, Payá Amate V, Pellicer Martínez A. (Valencia, Spain)
- P-14. Diagnostic test for ovarian endometriosis with lipids biomarkers**
Vouk K, Hevir N, Ribic-Pucelj M, Haarpaintner G, Scherb H, Osredkar J, Möller G, Prehn C, Adamski J, Lanišnik Rižner T. (Ljubljana, Slovenia)
- P-15. Elevated glycodelin-A concentrations in serum and peritoneal fluid of women with ovarian endometriosis**
Bersinger N.A, Kocbek V, Vouk K, Lanišnik Rižner T, Mueller M.D. (Ljubljana, Slovenia)
- P-16. Usefulness of serum human epididymis protein 4 (HE4) levels to discriminate clear cell and endometrioid ovarian cancer from ovarian endometriomas**
Rius M, Martínez-Zamora M.A, Fusté P, Escudero J.M, Molina R, Pahisa J, Balasch J, Carmona F. (Barcelona, Spain)
- P-17. Urinary Cytokeratin-19 Fragment (CYFRA 21-1) as biomarker for bladder endometriosis**
Ferrari S, Alberico D, Persico P, Tandoi I, Garavaglia E, Giardina P, Di Puppo F, Motta A, Pagliardini L, Viganò P, Panina P, Candiani M. (Milan, Italy)
- P-18. Effect of cannabinoids in a mouse model of endometriosis**
Sanchez A. M, Mugione A, Diaz J, Velasco G, Candiani M, Viganò P, Panina P. (Milan, Italy)
- P-19. Diagnostic value of serum MCP-1 level and GSTM1 gene Polymorphism in Egyptian women with endometriosis**
Salem M.E.E, Salem D. A. S, Obaya E. M, Mostafa M.M. (Il Cairo, Egypt)
- P-20. Identification of disease associated secretome-differences in the serum of patients with endometriosis - Pilot study**
Pateisky P, Szabo L, Leditznig N, Jaeger-Lansky A, Kuessel L, Staudigl C, Schneeberger C, Wenzl R, Yotova I. (Vienna, Austria)
- P-21. Neurokinin Receptor 1 is upregulated in ectopic endometrial tissue by TNF α**
McKinnon B, Evers J, Bersinger N.A, Mueller M.D. (Bern, Switzerland)
- P-22. mRNA expression of Foxp3 and RORc transcription factors and of IL-10 and IL-17A cytokines in ovarian endometrioma of women with endometriosis**
Laganà A.S, D'Ascola A, Salmeri F, Sofo V, Pizzo A, Retto G, Sturlese E, De Dominicis R, Campo S. (Messina, Italy)
- P-23. Role of cytokine patterns in endometriosis**
Gardella B, Tonani S, Calvino I, Carletti G.V, Pietrocola G, Spinillo A. (Pavia, Italy)
- P-24. Association of endothelial nitric oxide synthase gene G894T polymorphisms with the risk of endometriosis in Iranian population**
Salami H, Moghaddam N, Moghaddam M, Ghasemi S, Kakavand Hamidi A, Hatamnejadian N, Mahdavi M, Abolghasemi S, Abbaspour M, Ebrahimi A. (Tehran, Iran)

- P-25. Endothelial nitric oxide synthase gene T-786C polymorphism and risk of endometriosis in Iranian population**
 Salami H, Moghaddam N, Moghaddam M, Ghasemi S, Kakavand Hamidi A, Hatamnejadian N, Mahdavi M, Abolghasemi S, Abbaspour M, Ebrahimi A. (Tehran, Iran)
- P-26. Tissue remodelling and non-endometrium like menstrual-cycling are hallmarks of peritoneal endometriosis lesions**
 Strissel P.L, Strick R, Wachter D.L, Sohler F, Sommer A, Burghaus S, Fasching P.A, Beckmann M.W, Renner S.P. (Berlin, Germany)
- P-27. Endometrial leukocytes and endometriosis: comparison between eutopic endometrium from women with and without endometriosis**
 Martinez D, Tropea A, Scarinci E, Morciano A, Ciardulli A, Teti A, Palla C, Moro F, Familiari A, Sagnella A, Lanzone A, Apa R. (Rome, Italy)
- P-28. Expression of aromatase in endometriotic heterotopies**
 Bezhenar V.F, Yarmolinskaya M.I, Kvetnoy I.M, Molotkov A.S, Polyakova VO, Durnova A.S. (Saint Petersburg, Russia)
- P-29. Levels of peritoneal fluid cytokines after GnRH agonist treatment in women with endometriosis**
 Bersinger N.A, Nirgianakis K, McKinnon B, Kostov P, Santi A, Mueller M.D. (Berne, Switzerland)
- P-30. Transcription factor FOXL2 in human endometrium: altered gene expression in endometriosis**
 Carrarelli P, Governini L, Lunardi Rocha A.L, Novembri R, Luddi A, Chapron C, Piomboni P, Bilezikjian L.M, Petraglia F. (Siena, Italy)
- P-31. Ultrasound for Deep Endometriosis: A Canadian Quality Assurance Audit**
 Fraser-Hill M, Murray M.E, Lussier R, Singh S. (Ottawa, Canada)
- P-32. Preoperative ultrasound evaluation of uterosacral ligaments endometriosis and parametrial involvement: a relationship with ureteral dysfunction**
 Lazzeri L, Di Giovanni A, Centini G, Pinzauti S, Exacoustos C, Luisi S, Malzoni M, Zupi E, Petraglia F. (Siena, Italy)
- P-33. Beyond laparoscopy: 3T magnetic resonance imaging in the evaluation of posterior cul-de-sac obliteration**
 Manganaro L, Vinci V, Sergi M.E, Bernardo S, Sollazzo P, Saldari M, Porpora M.G, Vittori G. (Rome, Italy)
- P-34. Fiber tracking of the sacral nerves in the female pelvis: a potential method to evaluate endometriosis-related fibres alteration?**
 Manganaro L, Vinci V, Sergi M.E, Bernardo S, Sollazzo P, Pantano P, Porpora M.G, Vittori G. (Rome, Italy)
- P-35. A new tool for scientific data management for endometriosis**
 Kuessel L, Jaeger-Lansky A, Staudigl C, Pateisky P, Poschalko G, Kowarik E, Wenzl R, Zeisler H. (Vienna, Austria)

- P-36. Sexual satisfaction, orgasm, desire and pelvic problem interference with sex in women with endometriosis**
Di Donato N, Montanari G, Benfenati A, Giovanardi G, Bertoldo V, Monti G, Seracchioli R. (Bologna, Italy)
- P-37. Burden of illness in women with endometriosis – health care resources and coping strategies**
Lövkvist L, Boström P, Gustavsson M, Alexandersson O, Bruse C, Liffner C, Holmberg J, Edlund M, Olovsson M. (Stockholm, Sweden)
- P-38. Dienogest in treatment of endometriosis** Doschanova A.M, Tuletova A.S. (Astana, Kazakhstan)
- P-39. Postoperative progestins exposure and risk of endometrioma recurrence. Dienogest and combined oral contraceptives (COCs)**
Ota Y, Kanao H, Andou M. (Kurashiki, Japan)
- P-40. Nano gold as new modality in the treatment of endometriosis**
Ali F.M, Gamal I, El Shayy S, Shaker S. (Il Cairo, Egypt)
- P-41. Silver nanoparticles decrease P450aromatase gene expression in human endometriotic epithelial and stromal cells in vitro**
Ali F.M, Gamal I, El Shayy S, Shaker S. (Il Cairo, Egypt)
- P-42. GnRH agonist new delivery system (intra vaginal ring and intrauterine loop in endometriosis) updated trend**
Ali F.A, Ali F.L, Fouad M, Ali F.M. (Il Cairo, Egypt)
- P-43. Application of aromatase inhibitors in genital endometriosis treatment**
Yarmolinskaya M.I, Bezhenar V.F, Molotkov A.S. (Saint Petersburg, Russia)
- P-44. N-Acetylcysteine for the treatment of ovarian endometrioma**
Porpora M.G, Ticino A, Imperiale L, Fuggetta E, Resta S, D'Itri F, Evangelista S, Storelli P, Manganaro L, Parasassi T. (Rome, Italy)
- P-45. Dienogest a new mechanism of action effect on Micro RNA, angiogenic factors, the Eph-ephrin system, histone (Metabolism, DELTA Estrogen Receptor)**
Ali F.A, Ali F.L, Fouad M, Ali F.M. (Il Cairo, Egypt)
- P-46. A Mediterranean diet decreases endometriosis-associated pain: A prospective cohort study**
Pateisky P, Ott J, Staudigl C, Nouri K, Hrebacka D, Kuessel L, Jaeger-Lansky A, Gutschelhofer S, Kowarik E, Huber JC, Wenzl R. (Vienna, Austria)
- P-47. Effect of laparoscopic surgery for moderate and severe endometriosis on depression, relationship satisfaction and sexual functioning: comparison of patients with and without bowel resection**
Van den Broeck U, Meuleman C, Tomassetti C, D'Hoore A, Wolthuis A, Van Cleynenbreugel B, Vergote I, Penninckx F, Enzlin P, D'Hooghe T. (Leuven, Belgium)
- P-48. Chronic pelvic pain and quality of life in women with and without endometriosis**
Centini G, Lazzeri L, Dorés D, Pianigiani L, Pinzauti S, Tosti C, Luisi S, Petraglia F, Zupi E. (Siena, Italy)

- P-49. Radical surgery for endometriosis. Analysis of quality of life**
De la Hera Lázaro C.M, Muñoz González J.L.A, Díez Á, Vellido Coteló R, Muñoz Hernando L, Jiménez López JS. (Madrid, Spain)
- P-50. Laparoscopic enucleation of endometriomas – comparison of surgical techniques**
Szylo K, Gorski J, Gordon Z. (Lodz, Poland)
- P-51. Fertility outcome after laparoscopic treatment of endometriosis in infertile women**
Porpora M.G, Sciotti G, Resta S, Fuggetta E, Storelli P, Ticino A, D'Itri F, Evangelista S, Benedetti Panici P.L, Manganaro L. (Rome, Italy)
- P-52. Pathological reaction of the levonorgestrel releasing intrauterine system on endometrium and adenomyosis**
Ota I, Ota Y, Ishihara M, Yoshioka T, Moriya T. (Kurashiki, Japan)
- P-53. Contemporary approach to integrated treatment of adenomyosis**
Ishchenko A.I, Zhumanova E.N, Gorbenko O.Y, Shulchina I.V, Lyadov K.V, Ostroumov O.A (Moscow, Russia)
- P-54. Does the laparoscopic route of hysterectomy increase the risk of surgical complications in adenomyosis patients?**
Barranco F, Solernou R, Martínez-Zamora M.A, Balasch J, Carmona F. (Barcelona, Spain)
- P-55. Ultrastructure characterisation of endometrial-myometrial interface in uteri with adenomyosis**
Ibrahim M.G, Barcena de Arellano M.L, Sachtleben M, Schneider A, Plendl J, Mechsner S. (Berlin, Germany)
- P-56. Ovarian reserve evaluation after laparoscopic excision of endometrioma**
D'Agostino G, Conte L, Berton S, Breda E, Bartolucci C, Litta P. (Padua, Italy)
- P-57. Pregnancy rate, recurrence and risk of premature ovarian failure after surgery for endometriosis**
Penati C, Trio C, Veneziano F, Bargossi L, Passoni P, Ferrari L. (Milan, Italy)
- P-58. Reproductive outcome, after surgery, in women with deep pelvic endometriosis**
Codroma A, Borghero A, Breda E, Fabris A.M, D'Agostino G, Cosmi E, Saccardi C, Litta P. (Padua, Italy)
- P-59. GnRh Agonist Therapy & IUI in Endometriosis**
Bansal K, Bansal M, Patel K. (Gujarat, India)
- P-60. Laparoscopic approach in deep infiltrating endometriosis. 5 years experience in a multidisciplinary unit**
Muñoz González J.L, Marqueta Marqués L, Muñoz Hernando L, López González G, De la Hera Lázaro C, Vellido Coteló R, González Macho C, Jiménez López J. (Madrid, Spain)
- P-61. Deep infiltrating endometriosis: review of the ultrasound parameters for an optimal surgical management**
Di Giovanni A, Lazzeri L, Tosti C, Pinzauti S, Exacoustos C, Luisi S, Malzoni M, Zupi E, Petraglia F. (Rome, Italy)

- P-62. Surgical treatment of deep infiltrating endometriosis: complications during and after surgery**
Marqueta Marqués L, Muñoz Hernando L, Muñoz González JL, Pérez Sagaseta C, Tejerizo García A, De la Hera Lázaro C, Guillén Gámez C, López González G, Jiménez López J. (Madrid, Spain)
- P-63. Ureteral endometriosis associated with hydronephrosis**
Torres X, Martínez-Zamora M.A, Franco A, Luque P, Peri L.L, Güell O, Munrós J, Perelló M, Balasch J, Carmona F. (Barcelona, Spain)
- P-64. Laparoscopic ureteroneocystostomy with antireflux “Jellyfish” technique for ureteral endometriosis**
Camanni M, Delpiano E.M, Bonino L, Cucchiareale G, Milan G. L, Ferrando U. (Turin, Italy)
- P-65. Symptoms of voiding dysfunction and painful bladder in patients undergoing surgery of severe deep infiltrating endometriosis: assessment before and after laparoscopic treatment**
Anglès S, Martínez-Zamora M.A, España M, Puig-Clota M, Balasch J, Carmona F. (Barcelona, Spain)
- P-66. Vesical endometriosis: transurethral Versapoint and laparoscopic combined treatment, management and follow up**
D’Agostino G, Codroma A, Borghero A, Breda E, Fabris A.M, Saccardi C, Litta P. (Padua, Italy)
- P-67. Histopathological infiltration depth of endometriosis and resection margins after bowel resection**
Nirgianakis K, Imboden S, Knabben L, Fellmann B, Mueller M.D. (Berne, Switzerland)
- P-68. Bowel involvement in deep infiltrating endometriosis. Therapeutic approach. Experience of a tertiary referral center**
Muñoz Hernando L, Marqueta Marqués L, Muñoz González J.L, Tejerizo García A, De la Hera Lázaro C, Lorenzo Hernando E, Álvarez Conejo C, Jiménez López J. (Madrid, Spain)
- P-69. Endoscopic balloon dilatation for the management of anastomotic rectal strictures after bowel resection of deep infiltrating endometriosis**
Güell O, Martínez-Zamora M.A, Fernández-Esparrach G, Ginés A, Munrós J, Perelló M, Torres X, Balasch J, Carmona F. (Barcelona, Spain)
- P-70. Laparoscopic extirpation of cervical endometriosis in 28-year patient with persistent dyspareunia**
Coric M, Gregov M, Škrkatic L. (Zagreb, Croatia)
- P-71. Ureteral injury during deep endometriosis surgery with reimplantation through uterus broad ligament in a nulliparous woman. A case report**
Argacha P, Gómez del Valle M, Peiró R, Rodellar L, Umbert B, Jiménez M. (Barcelona, Spain)
- P-72. Feasibility and surgical outcome of robot-assisted laparoscopic colorectal resection for deep infiltrating endometriosis**
Freschi L, Cela V, Simi G, Papini F, Tana R, Pluchino N. (Pisa, Italy)
- P-73. Atypical localitation of endometriosis. Thoracic endometriosis syndrome (TES):a case report**
Vellido Coteló R, Muñoz González J.L, de la Hera Lázaro C, Tessier España E, Álvarez Conejo C, Jiménez López J.S. (Madrid, Spain)

- P-74. Endometriosis node in gynecologic scars. retrospective study of 17 patients and literature review**
Vellido Coteló R, Muñoz González J.L, de la Hera Lázaro C, Oliver Pérez M.R, Álvarez Conejo C, Jiménez López J.S. (Madrid, Spain)
- P-75. Deep endometriosis of posterior compartment. surgical treatment planning. A case report**
Gómez del Valle M, Argacha P, Peiró R, Sánchez S, Rodellar L, Jiménez M. (Barcelona, Spain)
- P-76. Endometriosis and ovarian cancer: a report of four cases**
Camanni M, Bonino L, Delpiano E.M, Deltetto F. (Turin, Italy)
- P-77. Appendiceal endometriosis: a case series**
Munrós J, Martínez-Zamora M.A, Güell O, Perelló M, Torres X, Balasch J, Carmona F. (Barcelona, Spain)
- P-78. Primitive bladder endometriosis: a case-report**
Tosti C, Pinzauti S, Lazzeri L, Centini G, Ciani V, Sabbioni L, Ferrata C, Luisi S, Zupi E, Petraglia F. (Siena, Italy)
- P-79. Correlation between the size of endometriotic node in the rectovaginal septum and the risk of bowel resection or ureterolysis in patients with deep infiltrating endometriosis**
Knabben L, Imboden S, Fellmann B, Mueller M.D. (Berne, Switzerland)
- P-80. Are there a higher number of complications in laparoscopic hysterectomy procedures due to endometriosis?**
Fuster Rojas S.I, Rodríguez Tárrega E, Zamora Prado J.O, Monfort Ortiz I.R, Payá Amate V, Pellicer Martínez A. (Valencia, Spain)
- P-81. Robotics surgical treatment of deep endometriosis**
Pluchino N, Simi G, Freschi L, Cela L. (Pisa, Italy)
- P-82. Single port access laparoscopy treatment of endometrioma**
Multinu F, Congiu F, Pischedda S, Melis G.B, Angioni S. (Cagliari, Italy)
- P-83. Pharmaco-economics in the therapy of endometriosis**
Doschanova A.M, Tuletova A, Nurgozhin T.S, Gulyayev A.Y, Yermekbayeva B.A, Abuova G.T. (Astana, Kazakhstan)
- P-84. Evaluation of the association of estradiol hemihydrate and norgestrel acetate (Zoely Teva Italy) in women with endometrioma**
Tosti C, De Leo V, Petraglia F. (Siena, Italy)
- P-85. Immunophenotypical characterization of stromal cells from the eutopic and ectopic endometrium of women with and without deep endometriosis**
Piccinato CA, Neme RM, Marti LC, Brudniewski HF, Silvério R, Ferriani RA, Goldberg AC. (Sao Paulo, Brazil)

Hall A **Genes, pathogenesis and new diagnostic perspectives**

Chairs: **Oskari Heikinheimo** (Helsinki, Finland)

Piero Litta (Padua, Italy)

SP-01. An Italian association study and meta-analysis with previous GWAS confirm WNT4 and FN1 as susceptibility loci for endometriosis

Pagliardini L, Gentilini D, Viganò P, Panina-Bordignon P, Di Blasio A.M, Candiani M. (Milan, Italy)

SP-02. A Gene expression of WNT family members in granulosa cells from women with endometriosis

Sanchez A.M, Corti L, Rabellotti E, Vanni V.S, de Michele F, Candiani M, Viganò P, Papaleo E, Panina P. (Milan, Italy)

SP-03. Role of VEGF gene single nucleotide polymorphisms in endometriosis

Góralczyk B, Smolarz B, Romanowicz H, Szyłło K. (Lodz, Poland)

SP-04. TGF-βs induce smad-dependent signaling and apoptosis in human endometrial and endometriotic cells

Mecha E, Omwandho C.O.A, Zoltan D, Tinneberg H.R, Konrad L. (Giessen, Germany)

SP-05. Inhibition of the expression of Syndecan-1 by the microRNA miR-10b leads to decreased invasiveness and proliferation of human endometriosis cells

Schneider C, Kässens N, Kiesel L, Götte M. (Münster, Germany)

SP-06. Expression of adhesion, attachment and invasion markers in eutopic and ectopic endometrium

Andersson K.L, Sundqvist J, Scarselli G, Gemzell-Danielsson K, Lalitkumar P.G.L. (Stockholm, Sweden)

SP-07. Correlation of histomorphology and clinicopathology of peritoneal endometriosis

Hackl J, Klingsiek P, Strehl J.D, Wachter D.L, Renner S.P, Hartmann A, Beckmann M.W. (Erlangen, Germany)

SP-08. The analysis of the human plasma N-glycome in endometriosis patients

Berkes E, Tinneberg H.R, Oehmke F. (Giessen, Germany)

SP-09. Multidrug resistance-associated protein 4, a prostaglandin E2 transporter, is increased in peritoneal endometriosis and regulated by Lipoxin A4 in vitro

Gori I, Rodriguez Y, Pellegrini C, Ahtari C, Hornung D, Chardonens E, Wunder D, Fiche M, Canny G.O. (Lausanne, Switzerland)

SP-10. Hormonal therapy deregulates PTGS2 expression in endometriotic tissues

Santulli P, Borghese B, Noël J.C, Fayt I, Anaf V, De Ziegler D, Vaiman D, Chapron C. (Paris, France)

SP-11. IKKβ activation in endometriosis and ovarian cancer

McKinnon B, Bersinger N.A, Mueller M.D. (Bern, Switzerland)

Hall B **Surgical and medical management**

Chairs: **Blazej Meczekalski** (Poznam, Poland)
 Fiorenzo De Ciccio (Rome, Italy)

- SP-12.** Differences in pain reporting and management between three geographical regions in a prospective study on patients with endometriosis (FEELING)
Chapron C, Magis A. on behalf of the FEELING study group (Paris, France)
- SP-13.** Relation between clinical symptoms and intraoperative findings in patients with rectovaginal endometriosis
Knabben L, Fellmann B, Mueller M.D. (Bern, Switzerland)
- SP-14.** Comparison between transvaginal ultrasound, sonovaginography and magnetic resonance imaging in the diagnosis of posterior deep infiltrating endometriosis
Borghero A, Saccardi C, Codroma A, Breda E, D'Agostino G, Fabris A.M, Cosmi E, Litta P. (Padua, Italy)
- SP-15.** Failure to detect endometriosis with 18 FDG PET/CT
Gardella B, Aprile C, Cavenaghi G, Di Silverio E, Tonani S, Calvino I, Carletti GV, Spinillo A. (Pavia, Italy)
- SP-16.** Endoscopic surgery in ovarian endometriosis: histopathologic observations on the loss of follicular tissue during treatment
Romualdi D, Tagliaferri V, Di Florio C, Busacca M, Gagliano D, Tartaglia C, De Ciccio S, Lanzone A. (Rome, Italy)
- SP-17.** Surgical treatment of endometriosis: alternative approaches
Giacci F, Rosati M. (Pescara, Italy)
- SP-18.** Hypertrophy of the levator ani muscle in patients with voiding bladder dysfunction after surgery of severe deep infiltrating endometriosis
Ros C, Martínez-Zamora M.A, Espuña M, Balasch J, Carmona F. (Barcelona, Spain)
- SP-19.** Adenomyosis and endometriosis: pregnancy outcome after pituitary down-regulation and assisted reproduction
Sõritsa D, Saare M, Laisk-Podar T, Sõritsa A, Matt K, Karro H, Salumets A. (Tartu, Estonia)
- SP-20.** Managing advanced endometriosis associated infertility with IVF-ET
Bansal K, Bansal M, Patel K. (Gujarat, India)
- SP-21.** Combined oral contraceptives and recurrent endometriomas: effects on lesion dimension and symptoms control
Vicenzi C, Frascà C, Giovanardi G, Benfenati A, Bertoldo V, Monti G, Seracchioli R. (Bologna, Italy)
- SP-22.** Implanon versus medroxyprogesterone acetate: effects on pain scores in patients with symptomatic endometriosis- a pilot study
Jaeger-Lansky A, Walch K, Unfried G, Huber J, Kurz C, van Trotsenburg M, Pernicka E, Wenzl R. (Vienna, Austria)

SP-23. Comparison of contraceptive ring and subcutaneous for the treatment of symptomatic endometriosis

Luisi S, Razzi S, Centini G, Iannone PG, Pinzauti S, Tosti C, Lazzeri L, Zupi E, Petraglia F. (Siena, Italy)

SP-24. Long term vaginal danazol treatment in women with endometriosis: a follow-up study

Pinzauti S, Tosti C, Lazzeri L, Luisi S, Moncini I, De Felice G, Biliotti G, Petraglia F. (Siena, Italy)

14.00-16.00 **SELECTED PAPERS**

Hall C Chronic pelvic pain: a gynecological team approach

Gynecological aspects

Chair: **Edgardo Somigliana** (Milan, Italy)

SP-25. Chronic pelvic pain

Candiani M. (Milan, Italy), Birch J. (Poole, UK)

SP-26. Visual mapping in endometriosis

Renner S.P, Boosz A.S, Burghaus S, Maihöfner C, Beckmann M.W, Fasching P.A, Jud S.M (Erlangen, Germany)

SP-27. Lower genital tract conditions

Origoni M. (Milan, Italy)

SP-28. Urogynecological conditions

Salvatore S. (Milan, Italy)

Interdisciplinary aspects

Chair: **Mauro Busacca** (Milan, Italy)

SP-29. Markers of deep infiltrating endometriosis in patients with ovarian endometrioma

Perelló M.F, Martínez M.A, Coloma J.L, Borràs A, Güell O, Munrós J, Torres X, Balasch J, Carmona F (Barcelona, Spain)

SP-30. Bladder function impairment in patients with deep pelvic endometriosis without urinary tract involvement: can it exist?

Camanni M. (Turin, Italy)

SP-31. Neurophysiological background of CPP

Cappellano F. (Milan, Italy)

SP-32. Gastrointestinal aspects

Guarino M. (Rome, Italy) Closing remarks Errico Zupi (Siena, Italy)

Closing remarks

Errico Zupi (Siena, Italy)

16.00-16.30 Tea break

DEBATES 16.30-17.45

- Hall A** Is the recurrence of DIE related to the validity of surgery?
Chairs: **Errico Zupi** (Siena, Italy)
 Jacques Donnez (Leuven, Belgium) vs **Marc Possover** (Zurich, Switzerland)
-
- Hall B** Does endometrioma may be considered a pre-neoplastic lesions?
Chairs: **Giovanni Scambia** (Rome, Italy)
 Massimo Candiani (Milan, Italy) vs **Vincent Anaf** (Brussels, Belgium)
-
- Hall C** Heavy menstrual bleeding: medical or surgical management?
Chairs: **Aude Beliard** (Liege, Belgium)
 Hilary Critchley (Edinburgh, UK) vs **Peter Oppelt** (Linz, Austria)
-

18.00 Hall A: EEL General Assembly

20.00 Gala Dinner

Hall A+B+C

08.30	Plenary lecture:
	Chair: Fulvio Zullo (Catanzaro, Italy)
	The long and winding road...the last 25 years of endometriosis research
	Stephen Kennedy (Oxford, UK)

Session 5 Medical treatment for endometrioma

	Chairs: Adolf Schindler (Essen, Germany), Antonio Lanzone (Rome, Italy)
09.00	Predictive factors and treatment of recurrence of endometrioma Ludwig Kiesel (Munster, Germany)
09.30	Is there a role for anti-angiogenesis therapy as a treatment for endometriosis? Annemiek W. Nap (Arnhem, The Netherlands)
10.00	Hormonal strategies for pain-related endometrioma Felice Petraglia (Siena, Italy)
10.30	Coffee break

Session 6: Endometriosis: the new frontiers

	Chairs: Luigi Fedele (Milan, Italy), Andrew Horne (Edinburgh, UK)
10.45	Epigenetic aspects of endometriosis Daniel Vaiman (Paris, France)
11.15	The value and actuality of biochemical markers Thomas D'Hooghe (Leuven, Belgium)
11.45	Cryopreservation of oocytes in woman with severe endometriosis: a new indication for fertility preservation Juan Garcia-Velasco (Valencia, Spain)
12.15	Take home messages Chairs: Stefano Luisi (Siena, Italy), Pietro Santulli (Paris, France), Stefan Renner (Erlangen, Germany)

GENERAL INFORMATION

Pre Congress Courses Venue

Courses 1-2	Hospital, Policlinico Le Scotte, Siena
Course 1	Live surgery
Aula 6	Centro Didattico - Via Le Scotte 4
Course 2	Role of imaging in the workup of endometriosis: FAQs to enhance the management
Aula A	Centro Direzionale - Palazzina amministrativa - Via Le Scotte 14
Courses 3-4-5-6:	Hotel Garden, Via Custoza 2, Siena

Social Events

29 November

21.30	After dinner drink Wine and cheese plus Vin Santo and Cantuccini in Contrada dell'Oca and Contrada dell'Oca Museum Visit - Via Santa Caterina 52, Siena <i>Free entrance for all Congress Attendees</i>
-------	--

30 November

20.00	GALA DINNER - Ristorante Millevini Fortezza Medicea, Bastione San Francesco –SIENA <i>Pre-Paid admission</i>
-------	---

Congress venue	Hotel Garden, Via Custoza, 25- 53100 Siena Phone: +39 0577 567111 Fax +39 0577 46050 - email: info@gardenhotel.it
-----------------------	--

Congress websites	For further information visit the websites: www.endo-siena.eu - www.unisi.it/obgyn/Endometriosi_Siena_2012
--------------------------	--

Language	The official language of the congress will be English
-----------------	---

Abstracts book	The accepted abstracts will be published in the Journal of Endometriosis
-----------------------	--

Registration fees

	On site registration
Congress	380 €
Pre-Congress courses	
Live surgery	
Role of imaging in the workup of endometriosis	80 €
In training participants	220 €

Registration includes:

Congress kit - Coffee break, lunch and tea break - Access to all sessions and Exhibition area

How to register: EEL (pag. 28) Congress Registration form (pag.29)

SIENA INFORMATIONS

The city is known worldwide for its artistic heritage and the substantial stylistic unity of its medieval street furniture, as well as for its famous Palio. The city was declared a UNESCO World Heritage Site in 1995. During your stay in Siena, you can enjoy visiting several artistic places such as the Duomo of Siena and the Battistero of San Giovanni, Piazza del Campo and Palazzo Comunale with Torre del Mangia, the Museo dell'opera metropolitana del Duomo, and the Pinacoteca Nazionale. Siena is situated in the center of Tuscany between the

Chianti area and Maremma and is rich in history, art and popular traditions. The nearby cities of Florence (60 km) and Pisa (160 km) may be reached; however, other beautiful places also deserve a visit, such as S. Gimignano, Volterra, Montalcino and Monteriggioni. December 1st Sant'Ansano Patron Saint: the date marks the beginning of the Year of Contrada. A solemn procession departs from Piazza del Campo along the 17 districts and arrives at the Cathedral where the Archbishop of Siena presides over the Holy Celebration.

The European Endometriosis League (EEL) was founded in November 2005 in Frankfurt. The EEL President is Prof. Hans-Rudolf Tinneberg (University of Giessen, Giessen, Germany) and EEL Secretary is Sabine Altmann. The next EEL event will be:

2nd European Congress on Endometriosis
29-30th November 2013
Berlin, Germany

President: **Prof. Andreas D. Ebert** (Berlin, Germany)
In order to become a member of the European Endometriosis League, please, subscribe the attached form (page 28).
