Associate Professor
Educational Leadership
and Policy Studies
University of Oklahoma

"As a historian of education, Velazquez' work centers race, gender and sexuality, and the history of urban education. Her book, *Puerto Rican Chicago: Schooling the City, 1940-1977* (University of Illinois Press 2022), chronicles the Puerto Rican community's response to the urban decay in which they were forced to live, work, and especially learn.
